

# How to use the last three weeks?

After this week, there is no more examinable content to present for JP2

But there are still three more weeks of timetabled contact sessions!

Help me figure out how to use them

Revision sessions, past/sample papers, extra non-examinable content, preview of Semester 2, just cancel some sessions, ...

*(I don't promise that I will directly follow the votes but your answers will help me decide!)*

Vote here (open until the end of today): <https://tinyurl.com/jp2-2020-endgame>

# Timetable (likely, pending final poll results)

Next week:

- Work on Lab 8 in your lab session, submit it on Thursday

- Revision lectures + Q&A on Monday, Wednesday; discuss Lab 8 solution on Friday

Week 10:

- Prepare for lab test in your lab session (practice problems available on Moodle)

- Live sessions: Q&A, extended examples, and/or past/sample papers

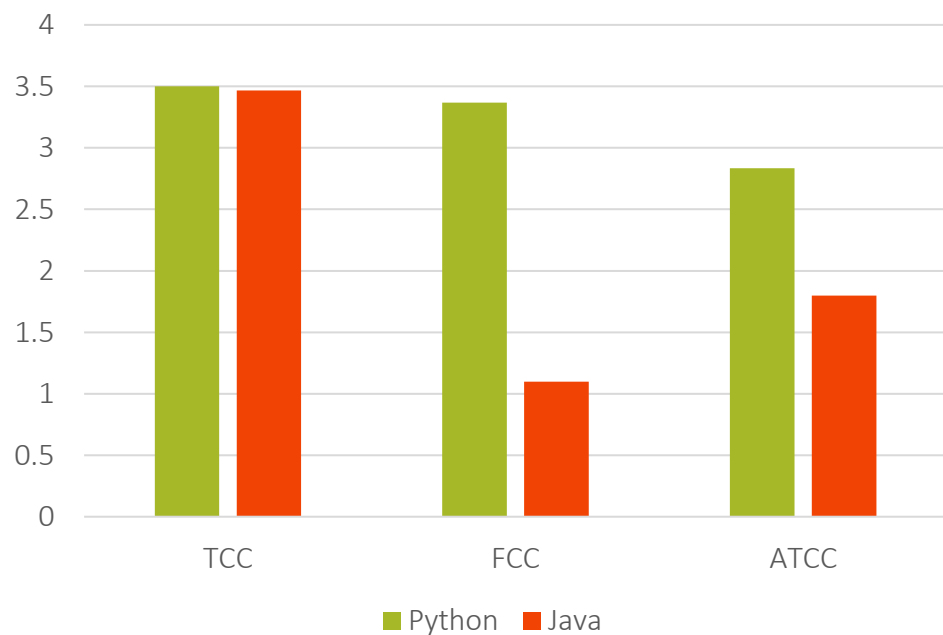

Week 11:

- Lab test Monday+Tuesday (exact timing released next week) – no Monday session

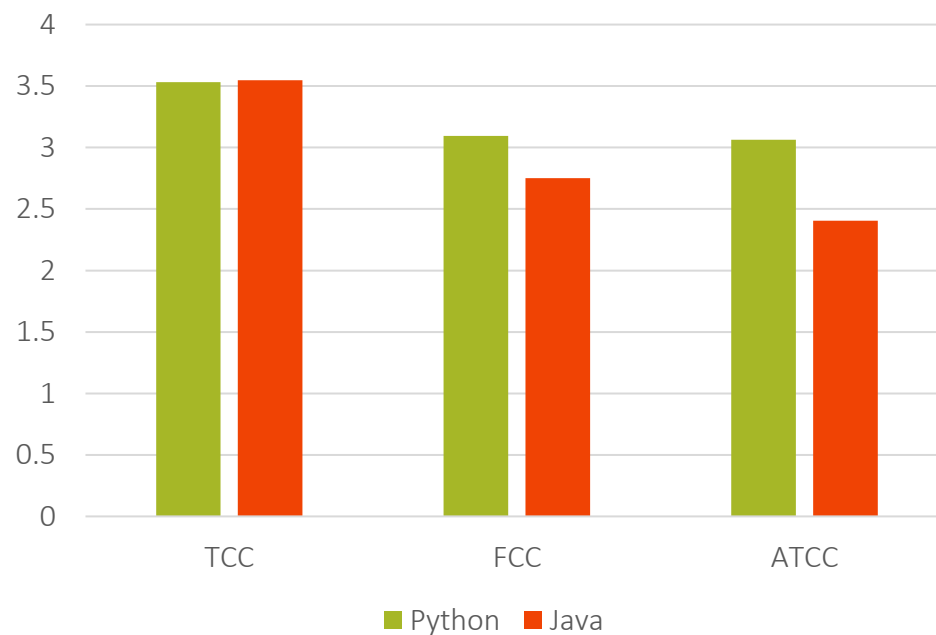

- Wednesday/Friday sessions: past/sample exam papers

# Summary of results on Python -> Java transfer

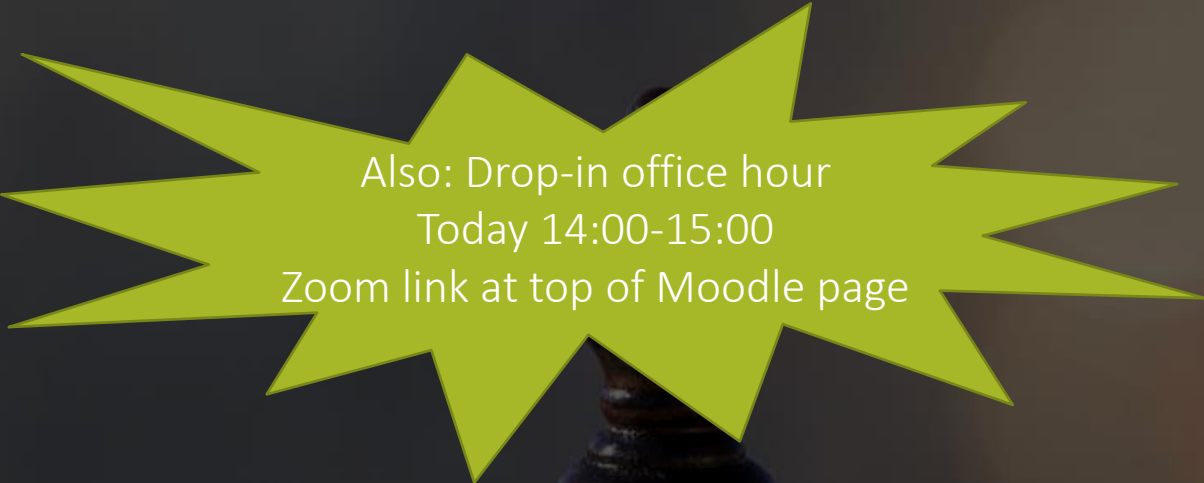

2019 STUDENTS (WEEK 3)

2020 STUDENTS (WEEK 3)

*I'll post the questions and answers from the survey next week*
