Question 1

Correct

Mark 1.00 out of 1.00

Consider the following HTML and JavaScript code:

```
<html>
   <head><title>Getting the time</title></head>
   <body>
      <h3>Button Event</h3>
      <button onClick="*****">What's the time?</button>
      <p id="para"></p>
   </body>
</html>
```

What should be inserted at point ***** so that the date and time is shown when the user clicks the button?

Select one:

○ document.getElementById('#para').innerHTML = Date()

◉ document.getElementById('para').innerHTML = Date() ✔

○ document.getElementById('.para').value = Date()

○ document.getElementByTagName('para').value = Date()

The correct answer is: document.getElementById('para').innerHTML = Date()

Question 2

Correct

Mark 1.00 out of 1.00

Consider the following JavaScript code:

```
function getReturnVal() {
   return
   true
}
```

What can you expect to be returned if getReturnVal() is called?

Select one:

◉ undefined ✔

○ true

○ null

○ false

The correct answer is: undefined

Question 3

Correct

Mark 1.00 out of 1.00

What is the correct jQuery code to set the background colour of all p elements to red?

Select one:

○ $("p").style("background-color" : "red");

○ $("p").css(background-color = "red");

○ $("p").style("background-color","red");

◉ $("p").css("background-color","red"); ✔

The correct answer is: $("p").css("background-color","red");

Question 4

Correct

Mark 1.00 out of 1.00

Consider the following script element existing midway through an HTML page that has jQuery imported:

```
<script>
    $(function() {
        $("button").click(function(){alert('remove p')});
        $("p").remove();
    });
</script>
```

Which of the following statements best describes the results of this script?

Select one:

- ○ All paragraph elements on the page would be removed as soon as the page loads ✔
- ○ All paragraph elements on the page would be removed when the user clicks a button
- ○ Only the paragraph elements written above this script element in the file would be removed
- ○ No paragraph elements on the page would be removed

The correct answer is: All paragraph elements on the page would be removed as soon as the page loads
